### Reception given by Bow Island people to Welcome the New Minister the Rev. Chas. Hockin and wife

The reception given last Thursday evening for the Rev. Hockin and his wife was a great success being attended by over sixty people. Rev. Mr. Johnston of Burdett was chairman, the Rev. Theo. Danielson also being there, a good program was given after which refreshments were served and then Mrs. Hockin was presented with a bouquet of cut flowers by the Ladies Aid.

Mr. P. A. Kennitt and Mr. Bissett were very busy moving a house from Winnifred by motor power and they are taking it to Foremost, they passed through Bow Island on the 13th.

Detective Sergt. Lobb R. C. M. P. of Lethbridge was in Medicine Hat on Friday the 8th, and arrested a party of gipsies, these people came from the U. S. in two autos, they were all fined one dollar and their cars confiscated, because they violated the Law by crossing into Canada without first getting proper authority.

Henry Smith, Mrs. Haynes, and Mrs. Metzger and child all coloured people were detained by Constable Bradner and wanted by the R.C.M.P. at Lethbridge, they all arrived here on Tuesday evening and were arrested on Wednesday. Henry Smith came to Canada from Minneapolis U.S. and Mrs. Haynes has been in Moose Jaw about 10 years and Mrs. Metzger about 12 years.

Mr. and Mrs. Lannon and baby from Calgary visited Bow Island Sunday last, staying with Mr. and Mrs. E.A. McKenna they are motoring through to Prince Edward Island.

Miss Marion Dewey is home on her holidays from Calgary, where she has been attending school.

Mr. and Mrs. F. Moerke and son Francis, were visiting with Mr. and Mrs. J. Halloran on Sunday last staying until Monday.

Mrs. Gene Hamel and Mrs. Hamel senior were visitors to Mrs. Abe Smith.

Miss Viola Duff spent last week with Clara Dewey.

Mrs. Herman Smith and family were in Bow Island and Burdett for a few days last week.

Clem Hoaglin was a Bow Island visitor last week.

Mr. Clouston of the Topographical Survey, with head quarters at Calgary has a party of five men, 12 miles south east of Bow Island running Levels through Alberta and as far East as Shamans, Sask. this work is being done for the Dominion Government.

**St. Michael's Church**  
Mass will be celebrated at 11:30 a.m. on Sunday July the 17th.

### Farmers! Be Loyal and Vote for the Farmers' Candidate

You Get Your Living\* from the Farmers either Directly, or Indirectly so Vote for the Farmers' Candidate

**Lawrence Peterson**  
On Monday, 18th. July

When the Farmers have good Crops it is then that the Towns are Prosperous.

This above shows we all have to rely on the Farmers.

So Vote for Lawrence Peterson on the 18th. July.

**POLITICAL MEETING**  
will be held at Bow Island on Friday July 15th. at 3 p.m. the Labour Candidate W. G. Johnston and the Farmers' Candidate R. Gardiner will speak to the Electors.

### Bow Island

Mr. Minnie of Calgary was a business visitor here last week.

Mr. H. Smith from Coaldale was in town last Saturday looking after his interests here.

Mr. and Mrs. S. Hurst motored to Elk Water Lake on Sunday last where Mrs. Hurst will remain for a few days.

It is reported that Mr. Brophy and family are very soon moving to Sask. where Mr. Brophy has been employed for some time.

Constable and Mrs. Bradner were visitors to Lethbridge last week.

Constable Light of Medicine Hat was in town on Saturday last on business.

Sergeant Lobb of the R.C.M.P. of Lethbridge was in Bow Island Saturday on business.

Mr. and Mrs. C. F. Henry and daughter of Fertile Plains were visitors to town last Saturday.

Miss Louise Colthup is visiting Marion Dewey.

Mrs. Bradner congratulates Mr. and Mrs. Ostrum.

Tom Leary from Millicent, Alberta is on a visit to his mother.

The Westbound Passenger Train was delayed five minutes last Tuesday morning at the west end of the yard at Bow Island by having to wait for an Eastbound Freight train to pull in.

Miss Ruby Brock from North Dakota was visiting Mrs. Leary last week, she has now gone to Spokane.

The two little Watterson children Lenetta and Verena are spending a holiday in Lethbridge.

Mrs. F. Henderson and Mrs. M. Whitney returned on Tuesday evening.

### Farmers!

Support your own Paper by Subscribing to the Bow Island Review which studies the interests of every Farmer.

### NOTICE

**U.F.A. and U.F.W.A.**  
Pres. I. D. James Pres. H. Schenart  
Sec. G. Monds Sec. Mrs. G. Calder  
Will meet on Saturday  
July 16th.

### Successful Picnic

The Landed School District held their first Annual Picnic and field day of Sport on the afternoon of June 30th. The scholars and friends of Sunnymede and Carnegie districts joined in the celebration also. The weather was ideal and between four and five hundred people including a number of town people filled the school grounds all day with their merry laughter and applause at the efforts of the children, to win the different events, in addition to the Races and Jumping, two Ball Games were played, one in the afternoon between Haycroft Juniors and Sunnymede Juniors the former team winning. In the evening after supper another Ball game between Landed and Sunnymede was staged, and when the conflict ended Landed was declared the winners by 14 to 13.

An excellent day's fun was brought to a close by a Dance in the School-house which was well attended. The success of the whole event is due to Miss Fisher the teacher and Messrs Fred Thurston, R. Waddell, Mrs. Thurston, Mrs. C. Johnson and Miss M. Waddell who worked hard all the time to make everyone happy.

Below is a list of the prize winners:

1. 40 yd. dash for girls 8 and under  
1st. Helen Mortenson  
2nd. Myrtle Mitchell

# Freedom Of Trade Returning To Russia Through British Influence

LONDON.—At the annual meeting of the Russo-Asiatic Consolidated Company, considerable light was thrown upon the recent political and industrial developments in Russia.

Leslie Unghurst, chairman, declared it was no secret that the British trade agreement with the Soviet Government had a profoundly moderating influence on the Soviet policy, and had been the compelling force at the Communists' congress in March, which induced the Soviet Government to issue a decree re-establishing the freedom of local trade.

Since the date of the decree, many small industries have been decentralized and returned to their owners, who are allowed to trade freely with their products. Forbidding competition has given place to free competition. The law now permits open barter between peasants and town workers, and admits the principle of private gain.

Many extremists have been dismissed from the Soviet Government, to make room for moderate men, and others have in practice renounced their communistic ideas. Gradual elimination of Communism marks the beginning of the re-establishment of favorable conditions for capitalistic development in Russia.

## British Fleet

### Prepared For Turks

Mediterranean Squadrons Quit Malta When Situation Threatens at Turkish Capital

Malta.—Virtually the entire British Mediterranean fleet with all the attendant ships, including the aircraft vessel *Fegasus*, is being concentrated within easy reach of Constantinople, where the situation is viewed with some alarm, in view of expected attacks by Kigallit troops. It is said that British military reinforcements also are coming out from England immediately.

Never before has the harbor of Malta been so empty. Even the reserve ships here are destined for the east, and the vessels which recently sailed in that direction have carried large supplies of ammunition.

In view of the situation, the commander-in-chief of the Mediterranean, Admiral de Robeck, who was expected here July 21, was not considered likely to come.

The only exceptions to the naval movement eastward are five vessels of the light cruiser squadron, under Admiral Tyrwhitt, which are at Alexandria.

### Favors Research Bodies.

LONDON.—The Empire Universities conference at Oxford discussed technological education. Sir Arthur Curzon, principal of McGill University, joined in the debate, advocating technological research in separate research institutes in close connection with a university.

### Entertain Kiddies at Calgary.

Calgary.—The Calgary Lions entertained fifteen thousand children at a monster picnic here, which proved to be one of the most successful affairs of the kind ever staged in Calgary. The day was a riot of fun for children and grown-ups alike.

## Gen. Smuts Is Hopeful For Peace In Ireland

After a Conference With De Valera Thinks That Problem Is Capable of Solution.

LONDON.—For the moment General Jan Christian Smuts, the South African premier, is the outstanding figure in the hoped-for peace settlement in Ireland. General Smuts has returned from that country where he engaged in conference with Eamon de Valera and other men of influence in the Irish situation and he declares his belief that the problem is capable of solution.

In his remarks at a dinner of the South African colony, Gen. Smuts, pleading for conciliation on the part of both sides, declared that a similar problem, equally difficult, had been solved in South Africa, where the South African was one of the happiest countries in the empire.

The Irish problem, said General Smuts, was one largely engaging the whole empire. It was a problem, however, in which he could not speak now, except to express the belief that it was solvable and that "if we all

## Morocco Troops Mutiny

Spanish Battalions Driven From Position and Six Officers Killed

Madrid.—Large contingents of natives have attacked and occupied a position in Morocco which was defended by a Spanish battery and two companies of natives who had been enrolled for service under the Spanish flag. The native companies maintained and killed six officers belonging to the force occupying the position. The native contingents afterwards attacked another position, but were repelled after a sanguinary fight lasting 26 hours, during which the natives lost heavily, including 100 killed, while the Spanish troops had three officers, including a major, and 30 men wounded.

These events, which have been made known officially, have produced a bad impression, because the public had come to believe that there could be no more serious fighting in Morocco.

## Irish Earl Still Missing

Police Believe Phase of Detention Is Changed Daily.

Belmont.—Although numbers of the police and military are scouring the country in search of the Earl of Bandon, who was kidnapped at Bantry, County Cork, June 21, when his residence, Castle Donard, was burned, no trace has so far been found of him. It is believed here that the place of his detention is changed daily, and that he is being held as a hostage for the safety of some condemned republicans.

## A Farmer's Book

Drury, Morrison and Oker U. F. O. Leaders Will Collaborate.

Toronto.—One of the Christmas books this year will be an autobiography of the United Farmers of Ontario. Premier Drury is writing of the movement as a whole; J. J. Morrison has been assigned to write the political aspects of W. L. Smith will outline the early Agrarian movement.

Col. S. Fraser will tell of farm experience in running a newspaper; W. C. Good will reveal the economic reason for the U. F. O.; and George Brodie will write of what the United Farm Women of Ontario have accomplished, and hope to do yet.

M. H. Staples, the U. F. O. director of education, will edit the volume and prophesy what will happen to the movement in the future.

### Asiatic Cholera Ravages Russia.

Stockholm.—Asiatic cholera is spreading rapidly in the whole of European Russia, according to the public health records. There were 6,000 cases reported to June 25.

According to the Rosta News Agency in Moscow all the Imperial cities and country houses of the Russian Empire in China will be converted into hospitals.

### Degree From Edinburgh University.

LONDON.—Premier McPherson has accepted the offer of Edinburgh University to confer upon him the degree of doctor of laws and he will visit that city on July 18. He will also receive the freedom of the city.

## Gen. Smuts Is Hopeful For Peace In Ireland

After a Conference With De Valera Thinks That Problem Is Capable of Solution.

LONDON.—For the moment General Jan Christian Smuts, the South African premier, is the outstanding figure in the hoped-for peace settlement in Ireland. General Smuts has returned from that country where he engaged in conference with Eamon de Valera and other men of influence in the Irish situation and he declares his belief that the problem is capable of solution.

In his remarks at a dinner of the South African colony, Gen. Smuts, pleading for conciliation on the part of both sides, declared that a similar problem, equally difficult, had been solved in South Africa, where the South African was one of the happiest countries in the empire.

The Irish problem, said General Smuts, was one largely engaging the whole empire. It was a problem, however, in which he could not speak now, except to express the belief that it was solvable and that "if we all

## Amundsen Will Sail For North Pole

New York.—Captain Amundsen is going to try and drift across to the North Pole. Arriving here after his rescue from the Siberian coast, the Norwegian explorer was quick to say that he would repair his damaged ship *Maud*, and go north again next summer to freeze into the polar flow and start his Arctic drift, which he expects will take five years.

## Economic Loss To Britain

Seventy Million Dollars Were Lost Over the Coal Strike.

LONDON.—Seventy million working days lost to the nation and £18,000,000 of extra expenditure incurred by the Government, are the official estimates computed in connection with the economic situation caused by the coal dispute.

The defense force army of reservists cost £70,000,000 and the railways claim £30,000,000 against the State for May alone.

The employees of the State coffers is demonstrated by the surprise announcement in the House of Commons that a new and unlimited issue of treasury bonds at 97 and bearing interest at 4 per cent. is urgently needed to meet obligations maturing in the next few months.

Three hundred million pounds, a deficit to be met with instead of the one hundred million originally budgeted for. The new bonds will be issued in eight years, thus giving time for a gigantic fund operation at a very reasonable opportunity.

## Farmer Leaders' Tour

Waiting to Learn What Dates Can Be Arranged With Hon. T. A. Cregar.

Toronto.—The tour of the Big Three farmer leaders is still up in the air. Premier Drury and J. J. Morrison have been waiting to learn what dates can be arranged with Hon. T. A. Cregar.

Today word was received at U.F.O. headquarters to the effect that Mr. Cregar could not promise any definite time as yet, but that he still was making efforts to attend the Canadian Council of Agriculture, which opens its session in Toronto on July 26. It is he is able to do so, the speaking tour will probably be made late in July or early in August.

## Reclaim Land in B.C.

Work Will Be Carried On By British Columbia Agricultural Government.

Victoria.—Reclamation of 100,000 acres of agricultural and industrial lands in British Columbia, which is in British Columbia and the balance in Idaho, was discussed at a conference here between Premier McPherson, John T. Pattullo, minister of lands and Governor Baker, of Idaho, and W. G. Swenson, of the Idaho reclamation commission.

It is expected the reclamation work will be carried on jointly by the British Columbia and Idaho governments. In Ottawa and Washington will be consulted.

### Real Thrill at Calgary Fair.

Calgary.—Eight thousand people, the largest grandstand crowd of the present Calgary exhibition, were given a real thrill during the automobile races when a Mooney speedster, driven by Oorske Larson, threw a wheel when travelling close to 60 miles an hour.

The car ploughed through the dirt for 30 feet while Larson turned a very few commentators but fortunately escaped unhurt.

### Russia Wants Autos.

Paris.—Representatives of Soviet Russia have been feeling out the ground in trade circles in France with the view, they indicated, of placing orders for automobiles and other articles of commerce, but reports from commercial quarters here that the Russians met with little encouragement.

### Census Returns Rapid.

Ottawa.—Returns from the census commissioners are coming in rapidly to the Dominion Bureau of Statistics according to a statement made by E. S. McPherson, assistant census commissioner. The census so far promises to be the most complete in the history of Canada.

### Gardiner's Big Majority.

Medicine Hat.—Official count of the Medicine Hat by-election held June 27, gives Robert Gardiner, National Progressive candidate, a majority of 9,549 over Col. Nelson Spencer. Gardiner's campaign, with still one poll to be heard from.

## Sylvia Pankhurst Freed

Sylvia Pankhurst, recently released from Holloway Jail, London, after serving five months as a result of articles that appeared in her Communist paper, "Workers' Dreadnought."

## Airships For Forest

Two "Blimps" Will Be Used in the Lake of the Woods District.

Camp Brandon, Ont.—Two airships of the blimp type were shipped recently by the naval air service, they will be used for forest patrol work in the Lake of the Woods district. Under the direction of Lieut.-Col. McLeod, D.S.O., formerly of the naval air service, they will be used for forest patrol work in the Lake of the Woods district. They are being loaned by the navy to the forest department as they are capable of being used by the navy.

## Canada To Share

In Reparations.

Britain Likely to be an Expenditure of Country and Number of Casualties.

LONDON.—The conference of Prime Ministers are grappling with the problem of reparations. Under the direction of the Supreme Allied Council, the Empire requires twenty-two per cent. of whatever Germany pays, fifty-five per cent. going to France and the balance to Belgium and Italy and the other allied nations. The task now confronting the conference is to fix a basis upon which the amount to be collected by the Empire shall be apportioned among its various parts.

This, it is being found, involves no little difficulty. It involved difficulty because a basis that might work advantageously for one dominion might prove unfair to another. Thus, for example, if loss of shipping were the basis, the number of ships in a country, which suffered so heavily in tonnage, would get practically everything and the dominions suffering less would get nothing. It is understood that it is not improbable that the amounts will be determined by apportioning the number of casualties. This, it is believed, would be satisfactory to Premier McPherson, in view of Canada's comparatively few casualties, both in blood and treasure, it would assure the Dominion receiving a fair share of whatever amounts are paid over.

As to what amount it may be found possible to collect from Germany, that, of course, is a wholly different matter. Sir Robert Horne, chancellor of the exchequer, who addressed the conference on the matter, reported that his words had been cordially received, but he is good reason for stating that he was not over sanguine of any great sum being realized.

### Signs of Conciliation.

LONDON.—Sir F. B. Jackson, the Irishman, who is the first quarter of Liverpool greeted the visit of the Prince of Wales to that city, and, according to a prominent Sinn Féin leader, the order for this came from Dublin. Other signs of conciliation are looked for as a general cessation of hostilities is considered and beyond all else for negotiations for peace.

## Flax Factory For West

Winnipeg.—Winnipeg is likely to be selected as a site of a \$3,000,000 factory for the spinning and twisting of flax, according to R. J. Hutchinson, chief of the flax division of the Federal Department of Agriculture, who was here enroute to Ottawa to visit the principal flax-growing centres in the west. Choice of location is between Calgary and Winnipeg. Mr. Hutchinson said that the erection of the factory will be begun early this fall.

## My First Dog Driving

By O-G-E-MAS-ES (Little Clerk).

(Copyrighted)

(Continued)  
I also speedily adopted the native style which is infinitely the best for the north. A dark blue sky of my first cap, unlined, which came about halfway to the knee, and strange to say, I was not without a hat, but I fastened with buckskin thongs and gartering. Then stroud leggings, coming halfway up the thigh, made hourly and always with a fringe on the outside seam, while for every day and blue for festive occasions, these were always gathered firmly below the knee. Then best of all, a full sized assumption belt of many colors which was girded above the hips and fastened a great support and made the costume much warmer. A huge pair of fur or moose skin mitts were always carried as a spare. These were fastened together by a long loop long to go over the belt. Gloves or light mitts were used when coming in, but if caught in a storm or lost track the big ones were essential.

The first experience a tender foot has when running in to town is violent, and here the ordinary wool sock is but of little use as it gets wet and is difficult and slow to dry. So I soon discarded them and adopted the oblong duff or stroud square, which can be dried in a minute or two at any stop and there are four changes, one at each corner of it. I still kept the leg-of-the-wind stockings and slippy out the feet off.

There is another most important part of a dog driver's equipment, and that is the whip. The ordinary hunky whip, as it is called, and as wicked as a bear, so his respect for his driver is governed by the latter's ability to handle it. A good whip is made of plaited deerskin thongs over a round heart, which is loaded with lead tapers in size. Four, six or eight thongs are used according to taste. First-class whip makers were famous and found a ready sale for their wares, but they practically at the time. The handle was of hardwood, sixteen to twenty inches long, and loaded at the head. This was useful as a weapon if the dogs attacked people. Well, I have described the whip to the best of my ability, but how to use it is another matter. After many hours I spent in practicing, and after some time I attained a certain measure of success, but was never a crack whip any more.

It was a fearsome sight to see Johnny Beads when thoroughly excited by the conduct of his team applying the whip. Upsetting his belt and placing his foot on the trace he would endeavor to flip the whip over his head, but he would not join in for sympathy. At every stroke the whip would come from the shoulder, and the dogs would be whipped.

The Russian Knout could be used. It was a fearsome sight to see Johnny Beads when thoroughly excited by the conduct of his team applying the whip. Upsetting his belt and placing his foot on the trace he would endeavor to flip the whip over his head, but he would not join in for sympathy. At every stroke the whip would come from the shoulder, and the dogs would be whipped.

## Britain Is Gratiified

Expresses Appreciation of Services Given by Governor-General.

Ottawa.—A cablegram of appreciation of his services while governor-general of Canada has been received by His Excellency, the Duke of Devonshire, from the secretary of state for the colonies. The cablegram is as follows: "His Majesty's Government have observed with great pleasure the terms of high appreciation in which your services as governor-general of Canada are acknowledged in the address presented to you at the closing of parliament and in the speeches on the adjournment of both houses. They are much gratified to note the recognition in all quarters of your services to Canada and Canada's recognition during your term of office and feel that you have thereby rendered notable service to the whole Empire. I am sure he glad if you will communicate this telegram to your government."

"The British Empire," declared Dr. Hertz, is not built up on millions of men."

The effect of the British system upon the people of Canada and Canada's recognition during your term of office and feel that you have thereby rendered notable service to the whole Empire. I am sure he glad if you will communicate this telegram to your government."

Black Rust Menace

Damage To Crops Is Feared By Government Officials.

Winnipeg.—Reports that have been reaching here from different parts of Manitoba and Saskatchewan that black rust has been detected on the growing wheat are now substantiated by Government officials, says a Winnipeg newspaper.

Damage to the crops depends on the weather during the next week or two, but the fact that black rust has been detected on the growing wheat is considered serious, and not alarming, the paper continues.

Give your local merchants a chance at home.

## Farmers! Be Loyal and Vote for the Farmers' Candidate

You Get Your Living from the Farmers either directly or indirectly so Vote for the Farmers' Candidate

On Monday 18th, July  
When the Farmers have good Crops it is then that the Towns are Prosperous.

This shows we all have to rely on the Farmers

So Vote for Lawrence Peterson, on 18th July

### Police Court News

Jack Dougan was arrested in the Grassy Lake district on Tuesday the 5th, by Constable Bradner. He was wanted by the Lethbridge City Police. Constable Bradner escorted him to Lethbridge.

Dougan appeared before his worship W.H. Lewis, Police Magistrate on Wednesday the 6th, charged with the theft of a Benetton and Sunbester, the property of his mother-in-law. The jeweller in question was given to Mrs. Dougan by her mother and it appeared that Dougan had received these articles in Lethbridge on April last, to help in paying a Hospital Bill and intended to pay back the \$10.00 the amount received for the jewellery which he was unable to do on account of hard times the whole thing being cleverly contrived, after hearing the evidence His Worship let the accused out on suspended sentence until he can earn enough money to pay the bank dealer the amount he had obtained on the jewellery.

**WINNIFRED**  
The Public-School closed for the mid-summer holidays, and all report the past term has been very successful. Much praise is due Miss D.C. Mackenzie the teacher, for her good work, she will remain until July 18th, to assist grades 7 and 8 to pass. Miss Mackenzie is then leaving for her home in Calgary and will spend her vacation at Seattle, Washington expecting to return to Winnifred next term.

Mr. and Mrs. Roy McLean are shipping out to Coaldale where they expect to reside.  
Mr. and Mrs. M.J. Collins and Mr. and Mrs. Jas. Larsen motored to Medicine Hat July 5th, for an outing.  
Mr. and Mrs. Denny Champagne of Orion were the guests of Mr. and Mrs. Kendall last Sunday.  
Miss Irene Backstrom is home from St. Theresa Academy to spend her vacation.  
Mrs. Besse Cook returned from a few days visit at Lethbridge.  
Miss Gladys Briggs returned to Lethbridge last Saturday after enjoying a lengthy visit in Winnifred.  
Mr. J.W. McFarlane has returned from Calgary where he has been on a visit to his daughter and son-in-law.  
Mr. Scotty Boes of Poremost spent a couple of days in Winnifred moving his house to Foremost.  
Mrs. Hinch is reported slightly indisposed this week her many friends regret to learn.

A Political meeting was held and was well attended on Saturday the 9th, in the L.O.O.F. Hall, in the interest of the U.F.A. and Labor Candidates. Mr. Perlin Baker and Mr. Johnson speakers.  
The Ladies Aid will hold their regular meeting July 14th in the Reg. Red Room. Mrs. Will Campbell and Mrs. Hodgson will serve luncheon, everybody cordially invited.  
Mr. and Mrs. Collins and Mr. and Mrs. Brown and families spent Saturday at the river fishing.  
Mrs. Alex Smith's many friends were glad to see her down town Sunday and able to take part and enjoy the Sunday service, she was conveyed down in her invalid chair.

### Creston B.C.

From our own Correspondent  
Mr. K. Bergen, Iver Peterson and Pete Wolford accompanied by J.P. Pease and wife returned from a motor trip to Spokane Saturday and report a pleasant time.

The party left Creston and crossed the Goat River at Elsieken then south to Port Hill Idaho. After paying a visit to the Canadian Customs office and securing a passport, they passed down the Kootenay Valley to Inland Ferry. After consulting the U.S. Customs Office they crossed the Kootenay River and followed a branch of the river and traveled over several miles of new road not so smooth as they might be, then they came to the little town of Coaldale on the lake of the same name.

The auto road then follows the Spokane International R.R. and traverses a partly timbered country with here and there an open field of clover or timothy. As having the end of the day among the vineyards, it made us think of the good old days on the farm.

Then we strike the thriving city of Sand Point on the Pond Oreille Lake, here we crossed the lake on a bridge over two miles long, after leaving the lake we follow the Pond Oreille River. We then passed Rathrum a prosperous little town in a farming community. The wheat looks good for 30 lbs. or more to the acre. The road leads us to the Post Falls irrigation project. This shows by its crops and fruit that water is the life of all vegetation.

After passing the little city of Post Falls we strike the acclimated road to Spokane, a run of 16 miles known as the Appleyway Highway and is a continual acreage of small farms and beautiful houses.  
This is also traversed by the Spokane Electric R.R. and gives the ranchers a chance to market their small fruit.

We found Spokane a lively city. It seems to have stood depression in business caused by the war and is building up as the times were prosperous. The return trip was made without incident or accident to meet the trip. We might mention that the boys had some trouble in Idaho getting tobacco and stuff, without which they seemed to be unable. The new law in regard to the sale of tobacco forced the small stores to cease handling this luxury.  
The R.R. Crossing are equipped with a small gang that rings when the train is crossing allow us to suggest that a player piano would sound better to the tourists while waiting for a long freight to cross.

After returning to Creston, the Winnifred boys rested over Sunday and started for home on Monday morning.  
Creston won the ball game played at Copeland, Idaho on July 4th, and also a game with Eastport the same day. The Honore Perry team came to Creston and won the game 3 to 11.

Master Dean Peales and six other sons left Monday for Morristown where they will be in camp for two weeks.  
The high waters on the flats are receding and a heavy hay crop looked for.

### The Weather July 1921

Friday 8th. Hot and sunny  
Saturday 9th. Hot and cloudy  
Sunday 10th. Hot and Sunny  
Monday 11th. Cloudy, good rain at night  
Tuesday 12th. Hot and heavy showers  
Wednesday 13th. Sunny  
Thursday 14th. Hot and sunny

Provincial Treasurer.  
**W. V. NEWSON,**  
Deputy Provincial Treasurer  
Parliament Buildings, Edmonton, Alta.

## Farmers! Be Loyal and Vote for the Farmers' Candidate

### ADDITIONAL BOW ISLAND

### Questions Placed Before Every Candidate for Election

A very heavy downpour of rain visited Bow Island last Tuesday evening 12th, July about 6 p.m. this was not a Hatfield rain, as it came from due north west, the Districts that were visited by this rain took very much better, the only pity is that our Farmers did not have this rain several weeks ago—however some are saying "that there is a lot more rain to be expected any day now".

Did you hear that it has been reported, that Medicine Hat has engaged Hatfield for another year but he will locate further North-West from Medicine Hat.

The Baseball Game played at Bow Island last Wednesday between Bow Island and Grassy Lake was won by Grassy Lake by 8 to 5.

Mrs. E. Thompson and family, Mrs. Rolfe and family and Mrs. G. Allen and family all went to Elk Water on Sunday last for a holiday.

Rev. Hockin was a visitor to Calgary this week.

Rev. Patrick Bowlin from Youngs-town was visiting Mr. and Mrs. F.O. McKenna on Wednesday, returning on Thursday accompanied by Mr. and Mrs. Moerke and son Francis.

The Ladies of the Altar Society met at the home of Mrs. J. Halloran on Thursday afternoon, a very good lunch was spent and the dairy lunch provided by the hostess was greatly enjoyed by all.

The Ladies of the Altar Society will meet at the home of Mrs. J. Lyzcowski next Thursday 21st July.

Miss Dorothy Deane and Mrs. Sherlock left on Monday for Manitoba, Miss Deane will then travel on to St. Paul, Minn. for a visit.

Mrs. Campion and family returned from Waterfalls on Wednesday.

Mrs. Roach has returned from a visit to Medicine Hat.

As you are announced as a candidate for the Provincial Legislature at the election to take place on July 18th, we would appreciate, at your earliest convenience, an answer to the following questions, and if elected, do you promise to give your entire support to the securing of this end?

If the Liquor Interests decide to take a referendum in this province on the sale of liquor for beverage purposes, do you promise to give your entire support to the securing of this end?

The friends of Prohibition are the allied forces that constitute the Social Service Council of Alberta.

We herewith submit to you a matter that, in our opinion, is of first rate importance.

It is a recognized fact that the ultimate solution of every problem is a moral solution. Has not the experience of recent years been proclaiming this from the house tops? This means that personality is the secret of success or failure. We all see this in the home, the church and the school. Are we as willing to see this in the legislature?

Are you a member of our "One Thousand Club"?

Constable Light of Medicine Hat passed through here on Tuesday enroute to Lethbridge with two prisoners.

44 United Farmers' Candidates have been Nominated up to the present.

**DATES for AUCTION SALES**

If you intend to have a Sale, be sure you leave the date at the Bow Island Review for D. M. Garrison - Auctioneer

## SCHEDULE OF BASE-BALL LEAGUE 1921

	HOME	Bow Island	Burdett	Foremost	Grassy Lake	Winnifred
Bow Island	SEE	June 29th.	June 9th.	July 13th.	May 24th.

Winnifred	June 15th.	July 29th.	July 7th.	May 27th.	NEWS	

Every Club in this League that wins a Game, so as to keep up the enthusiasm of their own town, should send in a Report of it to the Bow Island Review, which will be published in full, Free of Charge.

# Figures Show How The Agricultural Wealth Of Canada Is Increasing

Agriculture ranks first and foremost among Canada's industries, and by means of its progressive strides successfully maintains its position as the head of the list in spite of the rapid progress made each year in manufacturing and other Canadian activities. The total estimated agricultural wealth of the Dominion in 1920, according to the Monthly Bulletin of Agricultural Statistics, numbered \$7,612,153,000 exclusive of miscellaneous products such as tobacco, flax, fibre, and maple products which would add another \$2,000,000 to the total.

Agricultural production for the year 1920, estimated at \$1,946,088,000, made up of field crops, \$1,435,248,000; farm animals, \$1,048,088,000; wool, \$5,321,000; dairy products, \$256,000,000; fruits and vegetables, \$40,000,000; and poultry and eggs, \$50,000,000. To arrive at the estimated agricultural wealth, \$4,333,568,000, the value of the land and buildings, \$391,667,000; for farm implements, and \$1,012,256,000 for farm livestock.

The estimated agricultural wealth of the previous year, 1919, was \$7,379,299,000, showing an increase in value for the past year of \$232,852,000. An increase in production value of crops for part of this, significant of a remarkable increase in yield when the decline in prices of many of the staples is taken into consideration. The steady and continual rise of farm land with the improvements in the way of buildings, implements, and the effect of nearly doubling this item of the estimate. Whilst the value of the country's possession of farming implements increased considerably there was a decline in the value of livestock, though, no perceptible dwindling in numbers.

The ascending value of agricultural production in Canada is very clearly illustrated in a comparison of the values of the past year with 1915, the total production was valued at \$11,869,000 in 1916, at \$12,239,000 in 1917, at \$13,631,000 in 1918, at \$15,305,700 in 1919, at \$17,753,841,000, and in 1920, at \$19,466,088,000. Between the years 1915 and 1920, field crops increased in value from \$25,371,000 to \$1,435,248,000; farm animals from \$7,978,000 to \$1,048,088,000; wool from \$33,000 to \$5,321,000; dairy products from \$24,605,000 to \$256,000,000; fruits and vegetables from \$33,000 to \$40,000,000; and poultry and eggs from \$35,000,000 to \$50,000,000.

Many factors are contributing to the augmentation of Canadian agricultural wealth. Early years saw a substantially increased acreage and production due to continuous settlement, which in its turn effects an elevation in Canadian farm land values.

## Betterment of Livestock

Pure-Bred Bulls Distributed Among Farmers in Western Canada. In the interest of the betterment of livestock, about four hundred pure-bred bulls are being distributed among farmers in the western provinces under a loan scheme of the Dominion Government. R. S. Hamer, chief of the livestock branch of the Dominion Department of Agriculture, has purchased three hundred pure-bred bulls at the various shows held in Western Canada for the purpose of acquiring additional first-class animals in connection with this scheme.

## Increase In Canada's Exports

Trade in May Exceeds That of a Year Ago. Canada's exports to the United Kingdom for the month of May last exceeded by \$3,000,000 those of May 1920. The current weekly bulletin of the department of trade and commerce points out that while Canada is experiencing with other countries the excessive reaction in business her export trade has not diminished in nearly the same proportion as her imports. Furthermore, in considering the declines from 1920 figures, the bulletin states that the value of the dollar is considerably higher in purchasing power today than it was last year so that the slump is not so ominous as it appears at first sight.

Incorporate Reindeer Ranch Co. Another company, with the object of ranching the reindeer and selling the meat as well as utilizing the hides has been incorporated at Vancouver under the presidency of Stefanoson, the Canadian explorer. He will leave with an expedition this fall to do some work on the suitability of certain islands in the Arctic north of the Dominion.

W. N. U. 1276

## Aircraft Service at the Coast

Regular Service to Seattle and Other Cities Instituted.

The Aircraft Manufacturing Company is now operating a first-class commercial aircraft service in Vancouver. A large modern Curtiss plane has been acquired as a nucleus of a much bigger fleet and the planes are situated on Burrard Inlet. Passengers will be taken up at English Bay and a regular service to Seattle, Victoria, Nanaimo and other cities will shortly be inaugurated. In addition to the aerial photography which will be conducted by the company will provide a great service to the owners of timber areas.

## Editor Has a Big Job

But it is One of the Noble Professions on Earth.

The man who edits the average newspaper cannot avoid treading on somebody's sensibilities. He must expect to be censured often for unintentional failures; must expect hard work and little thanks; must expect to be called a coward because he does not "pitch into" everything that somebody thinks is wrong, or a fool if he speaks out too plainly on public life; he must expect to grind other people's axes—and turn the grindstone himself. Still we think it is one of the noblest professions on earth; the one in which the earnest man can do the most good to his fellow man; the one which a western editor—from the Fourth Estate.

## Canada's Population

Nine Million is Supposed to be Approximately Correct.

The population of Canada in 1920 is now being taken is officially estimated at nine million. By the application of several methods used by international statisticians this result is figured out. By one method it will be nine and a quarter million; by another, eight and three-quarters. But the department is inclined to accept the estimate of nine millions as approximately correct and it is exceeded. Statistics of births in the various provinces last year are of interest in connection with the census. In Ontario births numbered 72,492, in Quebec 83,466, Saskatchewan 22,051, Manitoba 18,459, Alberta 14,224, Nova Scotia 13,138, New Brunswick 10,699, British Columbia 12,418 and Prince Edward Island 2,281.

## Be an Optimist

Canada One of the Few Nations That Can Look to the Future With a Satisfied Smile.

Be an optimist! Anyone can smile and see a great future for Canada when prices are jumping, every one is prosperous and we have a fresh supply of millionaires for breakfast every morning.

There is a different brand of confidence to smile when prices drop, the dollar looms up as if seen through a magnifying glass, and the breakfast food has changed from millionaires to bankrupts.

But from all over Canada comes report that indicate a bumper crop. The starvation that stares some countries in the face gives the Dominion a wide berth. There is work for everyone who is not too proud or too delicate to work for the land.

And all the while Canada's national resources are increasing in value. There is gold in the Northland, oil in the Arctic circle, and billions of tons of coal waiting to be mined in the interior provinces.

It is a period of universal poverty. The world is strewn with bankrupt nations. And Canada looms up among them as one of the few nations—if she is a nation—that can look to the future with a full stomach and a satisfied smile.

Be an optimist!—Toronto Telegram.

Never Mind The Grimes.

The Go-Down Times-Journal has an article on "The Menace of Dirty Paper Money." We prefer the clean kind of course, but if your subscription is not up to date, we will fresh from the laundry, bring what you have. It will be pretty dirty if this offer turns up its nose at it—Orilla Falls.

An ostrich's egg equals twenty-two hen's eggs.

## Fair Sex as Farmers

Resolution Urging Government to Permit Women to File on Homesteads.

A resolution urging the Federal Government to permit women to file on homesteads on the same basis as men was passed at the convention of the Federated Women's Institute at Edmonton. At the present time only widows may file under the homestead regulations and it is pointed out that since the war women have discovered that they are quite capable of performing all the work of farm estates. Several women who served overseas have exercised their soldiers' right to take homesteads whilst other women have purchased lands they are unable to secure otherwise.

## British Factories

Advocates British Factories for Dominion to Hold Trade for United Kingdom.

The erection of British factories in the Dominion in order to secure for the United Kingdom a share in the "great industrial future of Canada," as advocated by Sir Peter Rylands, president of the Federation of British Industries, in a contribution to the Weekly Bulletin of the Department of Trade and Commerce. Sir Peter urges increased reciprocal trade between the United Kingdom and Canada, and the investment of British capital in the Dominion. He professes the services of the federation's officials in their various centres, on behalf of Canadian businessmen visiting the United Kingdom.

## Fisheries Production

Salmon Is Canada's Most Important Fish, the Lobster Comes Second.

The fisheries production of Canada for the year 1920 reached a value of \$49,321,217, according to returns just received by the Dominion Bureau of Statistics. British Columbia's fishing industry accounted for \$22,300,000 of the total, and that of Nova Scotia for \$12,700,000. The value of the Canadian's most important fish, the lobster coming second, and cod, halibut and herring in the order named. Nearly \$2,000,000 worth of shellfish were marketed.

One of the Mammoth Elevators at the Head of the Great Lakes, from whence Western Canada Grain is Transported by Boat to Eastern Canada.

## American Rancher in B. C.

Albert H. McCarthy, of New York, Has 5,000 Acres Near Wilmer. Encouraged by the success he has attained in the Lake Windermere district since he first settled there some eight years ago, Albert H. McCarthy, of New York, has decided to go into the cattle raising industry and for this purpose has purchased some 5,000 acres of land near Wilmer. A force of carpenters and others are at work putting up the necessary buildings, which consist of several dwelling houses, large barns and feeding sheds, etc.

## Pur Sealing On B.C. Coast.

West Coast Indians expect to take about two thousand fur seals this season. Last year the catch was twelve hundred. Indians are the only persons who can legally take these animals, outside the legal percentage permitted by International Treaty.

## Prince Rupert Fisheries.

For the first two weeks of May, the halibut catches for Prince Rupert totalled 1,600,000 pounds, exceeding for a like period anything in the history of the halibut industry. The exclusive of 200,000 pounds which was forced to go to other points.

There are natives in Central Asia who can jump five feet high as from a standing position without an effort.

The best type of man for long life is rather short and below the normal weight, it is said.

## Human Qualities of Sims

Nothing Petty or Small in His Open-Hearted Manner.

In his human qualities as in his naval exploits Admiral Sims is after the American people's own heart. Nothing is so admirable as a peace-loving warrior, who will be sung in fame and fable for his achievement in the great war of all history, was the object of an attempted humiliation put upon him by a man of very little consequence in the big affairs of this world, various and varied may be the opinions as to how the renowned Admiral would take it.

Admiral Sims might have blazed his own way, or he might have challenged the justice of the official reprisal, or he might have withdrawn in the sulks.

But Admiral Sims did none of these things when Denby offered him the petty affront.

With his honest sailor speech and jolly sailor laugh, that splendid tamer of the German submarines manfully blurted out the fact, "Having spilled his beans, I got what was coming to me."

The more the American people see of Sims, their great naval figure of the future, the more he looks to them.—New York Herald.

## Developing Grain

Benefits Derived From Improving Strains in Cereals.

What can be done in the respect of developing grains, trees, fruits and vegetables was illustrated forcibly by George H. Hutter, of the Canadian Pacific Railway's Department of Natural Resources, when addressing the Calgary Board of Trade.

He stated that during last year alone, Alberta had realized from \$20,000,000 to \$300,000,000 more from Marquis wheat than the work of Dr. Saunders, of the Dominion experimental farms, who evolved this type from the Red Fife and the Calcutta Hard.

## The Primrose Path.

Road maintenance is even a greater problem than road construction.

The only road that remains smooth and inviting without maintenance is the broad road to peddle every mile of which may be coasted.—Louisville Courier-Journal.

## Experimental Farms

Prove To Be Great Benefit To The Farmer

Men and Conditions

Within the Power of Many to Control Conditions of Various Kinds.

"You may think those are the foundation conditions of a successful mercantile a short time ago. 'But they are not; men are the foundation.' This merchant, in an interview, persisted in talking of men rather than business 'conditions.' Men, to him, were the controlling factor in trade affairs at any time. The right kind of men could do much to control and shape conditions; other kinds of men were dominated by the conditions. The fact which this prominent man of business emphasized may be widely applied. The differences in conditions anywhere are largely the differences of men. One man makes misfortune, financial or otherwise, the opportunity for some kind of advancement; another apparently is unable to do anything but accept the conditions as they come and allow himself to be molded by them. Here is the difference that counts the difference in men. It is within the power of many to control conditions of various kinds. Whether they will exercise this power becomes the determining factor in their lives.—Kansas City Star.

## Facilities of Journalism

Resolution Urging Government to Add Journalism to Curriculum.

Recommending that facilities of journalism be established in provincial universities throughout Canada, the Canadian Weekly Newspaper Association adopted a resolution at its convention held in Vancouver recently, urging that provincial governments take steps to add journalism to the curriculum of universities. The resolution expressed commendation of Manitoba and Ontario as the pioneer provinces in this respect.

## Saskatchewan Highways

Extensive Programme Is Mapped Out By Department for this Year.

Nearly a million dollars worth of work in the province is now under construction or is about to commence by the Saskatchewan Department of Highways or by municipalities under contract with the department. The programme includes the construction of 220 miles of provincial highways, a somewhat smaller mileage of main market roads, 16 steel and concrete bridges, 90 timber bridges, and 9 reservoirs.

## Manitoba Rural Credits.

There are now several rural credit societies in Manitoba, several new ones having been organized since the end of the fiscal year last November, according to C. Gifford, supervisor. Loans granted total \$1,640,000, of which \$67,000 is less than last season.

## Growth of the U. F. A.

The United Farmers of Alberta, the premier agricultural society of the province, has of late years increased in its membership by leaps and bounds, now numbering both women and children more than 32,000.

## Got a Backsander.

Resolution Urging Government to Add Journalism to Curriculum.

Recommending that facilities of journalism be established in provincial universities throughout Canada, the Canadian Weekly Newspaper Association adopted a resolution at its convention held in Vancouver recently, urging that provincial governments take steps to add journalism to the curriculum of universities. The resolution expressed commendation of Manitoba and Ontario as the pioneer provinces in this respect.

## Resolution Urging Government to Add Journalism to Curriculum.

Recommending that facilities of journalism be established in provincial universities throughout Canada, the Canadian Weekly Newspaper Association adopted a resolution at its convention held in Vancouver recently, urging that provincial governments take steps to add journalism to the curriculum of universities. The resolution expressed commendation of Manitoba and Ontario as the pioneer provinces in this respect.

It says to patronize home industry. Buy from the merchants in your own town.

One of the Mammoth Elevators at the Head of the Great Lakes, from whence Western Canada Grain is Transported by Boat to Eastern Canada.

## Saskatchewan Highways

Extensive Programme Is Mapped Out By Department for this Year.

Nearly a million dollars worth of work in the province is now under construction or is about to commence by the Saskatchewan Department of Highways or by municipalities under contract with the department. The programme includes the construction of 220 miles of provincial highways, a somewhat smaller mileage of main market roads, 16 steel and concrete bridges, 90 timber bridges, and 9 reservoirs.

## Manitoba Rural Credits.

There are now several rural credit societies in Manitoba, several new ones having been organized since the end of the fiscal year last November, according to C. Gifford, supervisor. Loans granted total \$1,640,000, of which \$67,000 is less than last season.

## Growth of the U. F. A.

The United Farmers of Alberta, the premier agricultural society of the province, has of late years increased in its membership by leaps and bounds, now numbering both women and children more than 32,000.

## Got a Backsander.

"What did Edith say when you asked her for her hand?"

"She simply said, 'You take the palm.'—Boston Transcript.

If there were no air, a lump of lead and a tiny feather, when dropped together would reach the ground at precisely the same time.

## Inspect Our Stock of Stylish & Servicable Footwear We have a very Attractive Line of: Ladies' Oxfords, Pumps, Slippers Etc.

When buying supplies for the home,  
Or replacing things that must go,  
Just do as they all do in Rome:  
Buy where the prices are low.

The money you save trading here  
For other things useful you may blow,  
And you'll never have anything to fear  
If you trade where the prices are low.

The years when the crops are real good,  
When everything turns to gold that you sow

You may be reckless with money and fiscal  
And think nothing of prices being low

In years when your Labor is vain,  
When nothing that you plant will grow  
Your duty to your family is plain;  
You must buy where prices are low.

Our trade has been of the best,  
As we've earned your confidence, y'know  
And Our values have held all the rest.  
For our prices have always been low
